- I'd love to book a Home Energy Assessment
- I'd like you to call me with more information
- I live in a Rental
- I own my home
- I would like to volunteer for the Mangakino Cosy Homes Curtain Bank or other resource projects like making draught stoppers, organising dry firewood, or sharing my home maintenance skills

All personal information will be confidential. Cosy Homes housing data will be used to identify common needs in the community for future possible funding applications.

While lots of our housing was meant to be “temporary” while the dams were constructed, Mangakino is NOT a temporary town, and we love it here! But our houses are fairly old and cold, and we’re keen to do what we can to warm them up, and make them more energy efficient. That’s good for our health and our pockets!

So over the last few months some locals have been trained up to help neighbours and householders who’d like to “warm up” their homes. We’ve got some knowledge and resources to get started with right now!

Cosy Homes Mangakino can provide you with:

- ✓ Full home assessment with a trained assessor and a plan for you as the householder to use, to make your home warmer, drier and more energy efficient (to save dollars on power)

Cosy Homes Mangakino can then support you to follow your plan, with:

- ✓ Ideas and practical support, such as curtains, draught stoppers, window starter packs
- ✓ Ways you can save on your energy costs by knowing how to read your bill, and what’s using up the power
- ✓ Showing you how to get rid of mould and stop it coming back
- ✓ Workshops on easy home maintenance skills
- ✓ Support with checking out whether your home can be insulated, what it would cost, and what subsidies are available

We’d also love your help if you’ve got time

To find out more, contact the Cosy Homes team on communitybrokermangakino@gmail.com or call into the library and have a chat to Danielle.
